

Flood Safety Tips

BEFORE

- Make an inventory of valuables
- Activate your household emergency plan
- Have copies of insurance policy and contact information on hand
- If Shelters are activated, go to the nearest one

DURING

- Avoid walking or driving through floodwaters
- Turn off your gas and electricity at the main switches to avoid a fire
- Remain in the upper portion of your home

AFTER

- Return home only when officials say it is safe to do so
- Boil water for drinking and food prep
- Avoid downed power lines and standing water that could be electrically charged
- Take pictures of any damaged items or property for insurance purposes
